

Tea Point specification

James Tobias **Tea Point** products are designed and manufactured to make communal break out/dining areas hygienic and stylish.

Completely bespoke, Tea Point offers all the storage and functionality needed to make tea breaks easy and convenient. Speedy manufacture, easy installation and available in a wide range of finishes, Tea Point is the perfect addition to any busy commercial interior.

CONSTRUCTION

All 18mm substrate with 1mm abs edge banding.

CNC drilled side panels allowing shelves to be adjusted on a 128mm centres range.

8mm rear panels include dual compound PVC sealing strips to prevent ingress of dust and improve the fixed location of the panel.

Levelling feet giving +/-20mm adjustment.

0 crank full overlay concealed hinge

Option for soft close attachment

S/S Eff Bar handle 234 centres as standard per door/ drawer

Multi-position stop, soft close flap hinge (KW2)

Additional lighting and power options available. Please ask for details.

WORKTOPS

Available in two thicknesses:

25mm Square edged – maximum one-piece board size 2,800mm

38mm Post formed edge – maximum one-piece board size 4,100mm

18mm Upstands (available in finish to match worktop colour)

Worktops are available in the same finishes as the façade. Other finishes are available on request.

FINISHES

From our standard range of mfc finishes (other finishes available on request)
